RE: Amendment to Scope of Work, Project 04-15/319, Dudley Pond Comprehensive Water Quality Improvement Project

Dear Mr. Turkington:

Pursuant to a discussion with Judy Currier, followed by email request, I approve an amendment to the scope of work for the above-named Dudley Pond project. The amendment will delete Task 3, Outlet Protection and Streambank Restoration, from the Project Scope of Work.

Due to unforeseen difficulties that include availability of materials and discovery of an abandoned landfill at the site of the bioretention cell, insufficient funds are available for completion of all grant tasks. MassDEP agrees that elimination of Task 3 will enable other priority grant work to be fully completed.

This letter formally amends Attachment A of the Contract Scope of Work for Project 04-15/319 by eliminating Task 3 and Task 3 deliverables.

Please feel free to contact me at 508-767-2792 if you would like to discuss this matter or any other aspect of this project.

Sincerely,

A handwritten signature in cursive script that reads "Jane M. Peirce".
